gave the world cars and aero engines unrivalled in their excellence. In 1915, 100 years ago, the pair produced their first aero engine, the Eagle which along with the Hawk, Falcon and Condor proved themselves in battle in the First World War. In the Second the totemic Merlin was installed in the Spitfire and built in a race against time in 1940 to help win the Battle of Britain. With unrivalled access to the company's archives, Peter Pugh's history is a unique portrait of both an iconic name and of British industry at its best.

The Code of Federal Regulations is the codification of the general and permanent rules published in the Federal Register by the executive departments and agencies of the Federal Government.
