In much of Africa, particularly south of the Sahara, the written record extends only a short time into the past. In "African Civilizations" Graham Connah makes good this deficiency with an examination of the archaeological evidence for the development of technology and increasingly complex societies and the growth of urban areas and states.

African Civilizations : Precolonial Cities and States in ...

Carthage, a Phoenician settlement in northwest Africa, became a major civilization in its own right in the seventh century BC. Though the Phoenicians were long considered a lost civilization due to the lack of indigenous written records, academic and archaeological developments since the mid-20th century have revealed a complex and influential civilization. [16]

Phoenicia - Wikipedia

In archaeological terms, this corresponds to the late Banesh period. This civilization is recognized as the oldest in Iran and was largely contemporary with its neighbour, the Sumerian civilization. The Proto-Elamite script is an Early Bronze Age writing system briefly in use for the ancient Elamite language (which was a Language isolate) before the introduction of Elamite Cuneiform .
