Despite real progress, women remain rare enough in elite positions of power that their presence still evokes a sense of wonder. InThrough the Labyrinth, Alice Eagly and Linda Carli examine why women ' s paths to power remain difficult to traverse. First, Eagly and Carli prove that the glass ceiling is no longer a useful metaphor and offer seven reasons why. They propose the labyrinth as a better image and explain how to navigate through it. This important and practical book addresses such critical questions as: How far have women actually come as leaders? Do stereotypes and prejudices still limit women ' s opportunities? Do people resist women ' s leadership more than men ' s? And, do organisations create obstacles to women who would be leaders? This book ' s rich analysis is founded on scientific research from psychology, economics, sociology, political science, and management. The authors ground their conclusions in that research and invoke a wealth of engaging anecdotes and personal accounts to illustrate the practical principles that emerge. With excellent leadership in short supply, no group, organisation, or nation can afford to restrict women ' s access to leadership roles. This book evaluates whether such restrictions are present and, when they are, what we can do to eliminate them.

Incorporating culture, time and place in the design process is fundamental to their approach. In this book, the architects offer a personal analysis of the thinking behind seven of their projects, illustrated by extensive plans, models and photos. Included are the Tel Aviv restaurants Jaffa Tel Aviv and Deca, the Israel Museum shop, Amsterdam's Palace Hotel and Sir Albert Hotel and Izakaya, and Villa Pi.
