handbook covers training requirements for Oxygen Worker Training, a necessary element for commands to manage the oxygen systems which are required for the revised procedures. It is suitable for divers and chamber operators.

This is the first comprehensive treatment in any language on the history of customary law in Hungary. It covers the period from the thirteenth to the twentieth centuries. Its starting-point is the customary law code published by Stephen Werboczy in 1517, which is known as the Tripartitum. Customary Law in Hungary discusses the composition, structure, and procedures of the courts as well as the substantive law of the kingdom, with special reference to noble land holding, and includes aspects of Hungarian public law, most notably the royal succession, the right of resistance, the making of statute

law, and the use in the modern period of ministerial decrees and judicial decisions. The nature of customary law is discussed and, likewise, its deployment in the modern period as a rhetorical device. This volume has a considerable comparative content which will be of interest to legal historians as well as to specialists in Central European history.

This publication is aimed at managers in all industries. It explains why human factors are important in health and safety and how they need to be assessed and managed in the same way as other risk factors. It gives practical advice on how to develop systems designed to take account of human capabilities and fallibilities.

Discusses storage networks, covering
