2. Creating a motion guide. 2.1 Click the Add Motion Guide icon beneath the layers to add a new motion guide. As you can immediately see, a new motion guide layer has been added to your document. The layer beneath it (airplane) has instantly become linked to this layer, become the guided layer. The airplane layer is now guided by the Guide: airplane layer. This can clearly be seen by the layer's icon which has become slightly indented — it has moved to the right.
