Have you got something to complain about? Have you been short changed? Have you complained and got nothing but hollow apologies? Are you due compensation? Then this book could help. With eight years experience in a customer management role for a multi-national retailer, Peter realised that it was the light-hearted, entertaining letters that received the most satisfactory resolutions. 'I want to complain' explains exactly what life is like on the other end of the call-centre telephone. The second section of the book contains a collection of genuine complaint letters along with their replies so you can see for yourself just how it works. Those companies written to include Marks and Spencer, Tesco, Asda and even Newcastle city council to get a parking ticket revoked - all with positive resolutions. 'I want to complain' hopes to put the 'fun' into refund and the 'jest' into goodwill gesture as it takes you on an entertaining and humorous journey into the world of customer services.

Hatchback, Estate (SW) & Coupe Cabriolet, inc. special/limited editions. Covers major mechanical features of Van. Does NOT cover GTi 180 models. Petrol: 1.1 litre (1124cc), 1.4 litre (1360cc 8- & 16-valve), 1.6 litre (1587cc 8-valve) & 2.0 litre (1997cc). Does NOT cover 1.6 litre 16-valve petrol engine. In 1984 Peugeot launched the 205 1.6 GTi, which not only changed Peugeot's image forever, but also set a new benchmark for 'hot hatches' eight years after the legendary Golf GTI had raised the bar. Weak points, rust traps, and potential mechanical defects are all laid bare by an expert for the would be buyer. Clear 205-specific photos illustrate problem areas and good points too, as well as model variations. The author also embraces customized and mechanically modified cars. A unique points scoring system lets you evaluate your potential purchase like and expert and also to determine which price category it should fall into. With both mileage and particularly condition having a marked affect on potential prices, the author gives sound advice on what is worth restoring and what, however tempting, is likely to cost a new owner an unrecoverable fortune. Weak points, rust traps, and potential mechanical defects are laid out for the reader, with clear 205-specific guidelines offered on the practicalities of rectifying such problems.
