One of the most successful attempts was made by Heinrich Wölfflin in his book *Principles of Art History: The Problem of the Development of Style in Later Art* (1915). Through a careful study of Renaissance (late 15th- and early 16th-century) and Baroque (17th-century) works of art, Wölfflin distilled a number of principles, which he arranged in five pairs, which helped him characterize the differences between the styles of the two periods.

Art and Theory in Baroque Europe: Wölfflin - Renaissance ...

The principles of art and design are balance, contrast, emphasis, movement, pattern, rhythm, and unity/variety. The use of these principles can help determine whether a painting is successful, and whether or not the painting is finished. The artist decides what principles of art he or she wants to use in a painting.
