This book features selected research papers presented at the First International Conference on Computing, Communications, and Cyber-Security (IC4S 2019), organized by Northwest Group of Institutions, Punjab, India, Southern Federal University, Russia, and IAC Educational Trust, India along with KEC, Ghaziabad and ITS, College Ghaziabad as an academic partner and held on 12–13 October 2019. It includes innovative work from researchers, leading innovators and professionals in the area of communication and network technologies, advanced computing technologies, data analytics and intelligent learning, the latest electrical and electronics trends, and security and privacy issues.

WIFS is the annual flagship workshop organized by the IEEE Information Forensics and Security (IFS) Technical Committee Its major goal is to bring together researchers in the field to foster ideas exchange and to allow cross fertilization among researchers working in the different areas of information security At the same time, WIFS intends to attract researchers traditionally not being part of the IFS community, while working in the forensic and security areas, thus broadening the scope of the workshop In this respect, WIFS will serve as a powerful instrument for community building WIFS will feature keynotes, tutorials, special sessions, lecture & poster sessions, and demo

Raised in a family of four, Kylila thinks she has the most ideal family. After her village has been burnt down, her deep, dark secret in her life begins to unfold. Having the powers to save or destroy the world, which would Kylila choose?

Networks of Invasion bridges a conceptual gap between ecological network studies and invasion biology studies. This book contains chapters detailing pressing concerns regarding invasive species in food webs, but also extends the idea of networks of invasion to other systems, such as mutualistic networks or even the human microbiome. Chapters describe the tools, models, and empirical methods adapted for tackling invasions in ecological networks. Contains chapters detailing pressing concerns regarding invasive species in food webs Deals with topical and important reviews on the physiology, populations, and communities of plants and animals
