The Strange Dragon Blood Tree of Socotra Island ...

The Blood Forest is one of the Seven Satrapies. For over 100 years, Ruthgar shared an alliance with the Blood Forest, and many of both Satrapy's noble families frequently married their children to children of the other's noble families. This resulted in most of the current nobles in Ruthgar having some Blood Forester heritage, and vice-versa.

Blood Forest (Blood Forest #1) by Geraint Jones

Native to a single island in the Socotra archipelago, off the coast of Yemen in the Arabian Sea, the extraordinary-looking dragon's blood tree, which is classified as "vulnerable to extinction," can grow to more than 30 feet in height and live for 600 years. Looming over the island's rocky, mountainous terrain, it produces rich berries and a vermilion sap — the source of its name — that has been used for centuries as everything from medicine to lipstick, and even as a varnish for ...

Blood Is Life — The Amazing Dragon's Blood Tree • The ...

Blood Forest is an excellent story of the Varus disaster in the Teutoborg Forest in AD9. It accurately follows the known history of the three legions as they decamp after campaigning and attempt to return to their Garrison for the winter. More specifically, Blood Forest is written in the first person, which doesn't always work, but it does here.
