This straightforward, accessible guide clearly explains what options are and how they work, their pros and cons, their relationship with stocks, and how to use them to gain leverage, generate extra income, and protect against adverse price movements.

"Guy Cohen is the master when it comes to taming the complexities of options. From buying calls and puts to iron butterflies and condors, Guy explains these strategies in a clear and concise manner that options traders of any level can understand. His chapter on options and taxes is especially welcomed (and needed). The Bible of Options Strategies is a straightforward, easy-to-use reference work that should occupy a space on any options trader's bookshelf." -Bernie Schaeffer, Chairman and CEO, Schaeffer's Investment Research, Inc. "The author delivers clarity, insight and perception making learning about options a joy, and practicing the art of making money that much easier: truly a bible from a guru." -Alpesh B. Patel, Author and Financial Times Columnist "Guy Cohen truly makes learning

A top options trader details a practical approach for pricing and trading options in any market condition The options market is always changing, and in order to keep up with it you need the greeks—delta, gamma, theta, vega, and rho—which are the best techniques for valuing options and executing trades regardless of market conditions. In the Second Edition of Trading Options Greeks, veteran options trader Dan Pasarelli puts these tools in perspective by offering fresh insights on option trading and valuation. An essential guide for both professional and aspiring traders, this book explains the greeks in a straightforward and accessible style. It skillfully shows how they can be used to facilitate trading strategies that seek to profit from volatility, time decay, or changes in interest rates. Along the way, it makes use of new charts and examples, and discusses how the proper application of the greeks can lead to more accurate pricing and trading as well as

Download File PDF The Options Playbook Featuring 40 Strategies For Bulls Bears

Alert you to a range of other opportunities. Completely updated with new material Information on spreads, put-call parity and synthetic options, trading volatility, and advanced option trading is also included Explores how to exploit the dynamics of option pricing to improve your trading Having a comprehensive understanding of the greeks is essential to long-term options trading success. Trading Options Greeks, Second Edition shows you how to use the greeks to find better trades, effectively manage them, and ultimately, become more profitable.

Important insights into effective option strategies In The Complete Guide to Option Strategies, top-performing commodity trading advisor Michael Mullaney explains how to successfully employ a variety of option strategies, from the most risky--selling naked puts and calls--to more conservative strategies using covered positions. The author covers everything from options on stocks, exchange-traded funds, stock indexes, and stock index futures to essential information on risk management, option "Greeks," and order placement. The book provides numerous tables and graphs to benefit beginning and experienced traders. Written by a CTA who has successfully employed various options strategies to generate market-beating returns, The Complete Guide to Option Strategies will be an important addition to any trader's library. Michael D. Mullaney (Jacksonville, FL) is a high-ranking commodity trading advisor who specializes in option selling strategies.

A complete options trading tutorial-reference with brokerage selection, trading platform setup and backup,

price chart analysis, popular chart studies and formations, trading rules, hands-on learning activities, trading options on futures, trading options on small accounts, an options terminology glossary, and a descriptive 78-strategy reference.

A detailed guide to successfully trading stock and commodity options After numerous years as an options market-maker in the trenches of the New York Mercantile Exchange, few analysts know how to make money trading options like author Lee Lowell. Now, in the Second Edition of *Get Rich with Options*, Lowell returns to show you exactly what works and what doesn't. Filled with in-depth insight and expert advice, this reliable resource provides you with the knowledge and strategies needed to achieve optimal results within the options market. It quickly covers the basics before moving on to the four options trading strategies that have helped Lowell profit in this arena time and again: buying deep-in-the-money call options, selling naked put options, selling option credit spreads, and selling covered calls. Breaks down four of the best options trading strategies currently available Explains how to set up a home-based business with the best options trading software, tools, and Web sites Contains detailed discussions of how options can be used as a hedging or speculating instrument With this book as your guide, you'll quickly see options in a whole new light and learn how to become part of a small group of investors who consistently win.
