The Three Steps are three prominent rocky steps on the northeast ridge of Mount Everest. They are located at altitudes of 8,564 metres, 8,610 metres, and 8,710 metres. The Second Step is especially significant both historically and in mountaineering terms. Any climber who wants to climb on the normal route from the north of the summit must negotiate these three stages. Three Steps on the Ladder of Writing is a poetic, insightful, and ultimately moving exploration of 'the strange science of writing.' In a magnetic, irresistible narrative, Cixous reflects on the writing process and explores three distinct areas essential for 'great' writing: The School of the Dead -- the notion that something or someone must die in order for good writing to be born; The School of Dreams -- the crucial role dreams play in literary inspiration and output; and The School of Roots -- the importance of depth in the 'nether realms' in all aspects of writing. Cixous's love of language and passion for the written word is evident on every page. Her emotive style draws heavily on the writers she most admires: the Brazilian novelist Clarice Lispector, the Russian poet Marina Tsvetaeva, the Austrian novelists Ingeborg Bachmann and Thomas Bernhard, Dostoyevsky and, most of all, Kafka.

There are ten important questions everyone should ask; and the answers to these questions, which lead to ultimate truth, are a matter of reason, not of faith.Well-known Catholic philosopher and writer Peter Kreeft tackles each of these questions in a logical step-by-step way, like climbing the rungs of a ladder. Because questions are best answered by dialogue, Kreeft answers these fundamental questions in an imaginary conversation between two very different people who meet at the beach. Kreeft's characters begin at the beginning, at the bottom of the ladder, which is the passion for truth. When it comes to the most important questions a person can ask, no mere interest in philosophical dabbling will do. The passion for truth does not stop there, however, but carries the reader from one page to the next in this thought-provoking adventure of the mind.Among the topics, or steps, that Kreeft's characters delve into include: Do you have the passion to know?Does truth exist?What is the meaning of life?What is love, and why is it so important for our lives?If there is a God, what proof is there for his existence?Has God revealed himself to us in a personal way?And many other important questions and topics to help climb the ladder to the truth about life

"A satire of writerly ambition wrapped in a psychological thriller . . . An homage to Patricia Highsmith, Oscar Wilde and Edgar Allan Poe, but its execution is entirely Boyne's own."—Ron Charles, The Washington Post **NAMED ONE OF THE BEST BOOKS OF THE YEAR BY THE WASHINGTON POST AND MINNEAPOLIS STAR TRIBUNE** Maurice Swift is handsome, charming, and hungry for fame. The one thing he doesn't have is talent—but he's not about to let a detail like that stand in his way. After all, a would-be writer can find stories anywhere. They don't need to be his own. Working as a waiter in a West Berlin hotel in 1988, Maurice engineers the perfect opportunity: a chance encounter with celebrated novelist Erich Ackermann. He quickly ingratiates himself with the powerful – but desperately lonely – older man, teasing out of Erich a terrible, long-held secret about his activities during the war. Perfect material for Maurice's first novel. Once Maurice has had a taste of literary fame, he knows he can stop at nothing in pursuit of that high. Moving from the Amalfi Coast, where he matches wits with Gore Vidal, to Manhattan and London, Maurice hones his talent for deceit and manipulation, preying on the talented and vulnerable in his cold-blooded climb to the top. But the higher he climbs, the further he has to fall. . . . Sweeping across the late twentieth century, *A Ladder to the Sky* is a fascinating portrait of a relentlessly immoral man, a tour de force of storytelling, and the next great novel from an acclaimed literary virtuoso. Praise for *A Ladder to the Sky* "Boyne's mastery of perspective, last seen in *The Heart's Invisible Furies*, works beautifully here. . . . Boyne understands that it's far more interesting and satisfying for a reader to see that narcissist in action than to be told a catchall phrase. Each step Maurice Swift takes skyward reveals a new layer of calumny he's willing to engage in, and the desperation behind it . . . so dark it seems almost impossible to enjoy reading *A Ladder to the Sky* as much as you definitely will enjoy reading it."—NPR "Delicious . . . spins out over several decades with thrilling unpredictability, following Maurice as he masters the art of co-opting the stories of others in increasingly dubious ways. And while the book reads as a thriller with a body count that would make Highsmith proud, it is also an exploration of morality and art: Where is the line between inspiration and thievery? To whom does a story belong?"—Vanity Fair

Charles Swindoll reminds readers that our problems are not solved by simple answers or all-too-easy clichés. Instead, he offers practical ways to walk with God through the realities of life—including times of fear, stress, anger and temptation.

Biography of the life and works of Silvestro Mazzolini da Prierio, (the monk designated by the Church to respond to Luther’s 95 theses), as well as his written discourse with Luther.

Animal Philosophy is the first text to look at the place and treatment of animals in Continental thought. A collection of essential primary and secondary readings on the animal question, it brings together contributions from the following key Continental thinkers: Nietzsche, Heidegger, Bataille, Levinas, Foucault, Deleuze, Guattari, Derrida, Ferry, Cixous, and Irigaray. Each reading is followed by commentary and analysis from a leading contemporary thinker. The coverage of the subject is exceptionally broad, ranging across perspectives that include existentialism, poststructuralism, postmodernism, phenomenology and feminism. This anthology is an invaluable one-stop resource for anyone researching, teaching or studying animal ethics and animal rights in the fields of philosophy, cultural studies, literary theory, sociology, environmental studies and gender and women's studies.

AI may be the greatest opportunity of our time, with the potential to add nearly \$16 trillion to the global economy over the next decade. But so far, adoption has been much slower than anticipated, or so headlines may lead you to believe. With this practical guide, business leaders will discover where they are in their AI journey and learn the steps necessary to successfully scale AI throughout their organization. Authors Rob Thomas and Paul Zikopoulos from IBM introduce C-suite executives and business professionals to the AI Ladder—a unified, prescriptive approach to help them understand and accelerate the AI journey. Complete with real-world examples and real-life experiences, this book explores AI drivers, value, and opportunity, as well as the adoption challenges organizations face. Understand why you can't have AI without an information architecture (IA) Appreciate how AI is as much a cultural change as it is a technological one Collect data and make it simple and accessible, regardless of where it lives Organize data to create a business-ready analytics foundation Analyze data, and build and scale AI with trust and transparency Infuse AI throughout your entire business and create intelligent workflows

This is the first truly representative collection of texts by Helene Cixous. The substantial pieces range broadly across her entire oeuvre, and include essays, works of fiction, lectures and drama. Arranged helpfully in chronological order, the extracts span twenty years of intellectual thought and demonstrate clearly the development of one of the most creative and brilliant minds of the twentieth century. With a foreword by Jacques Derrida, a preface by Cixous herself, and first-class editorial material by Susan Sellers, *The Helene Cixous Reader* is destined to become a key text of feminist writing.

The importance of palliative care for children facing life threatening illness and their families is now widely acknowledged as an essential part of care, which should be available to all children and families, throughout the child's illness and at the end of life. The new edition of the Oxford Textbook of Palliative Care for Children brings together the most up to date information, current knowledge, evidence, and developments of clinical practice in the field. The book is structured into four sections. 'Foundations of Care' describes core issues, the foundations on which paediatric palliative care is based. 'Child and Family Care' looks at different aspects of psychological, social, and cultural care for the sick child or young person, and their family. These chapters cover the time course of the illness, around the time of death and support for the bereaved family. 'Symptom Care' focuses on the uses of medication, specific symptoms, and their management. Finally, 'Delivery of Care' examines practical approaches to care in different environments and the needs of clinicians. Two new editors join the team from Canada and South Africa, reflecting our aims to contribute towards the development of care for children across the world, and to be a resource for both experienced clinicians and those new to the field. Comprehensive in scope, exhaustive in detail, and definitive in authority, this third edition has been thoroughly updated to cover new practices, current epidemiological data, and the evolving models that support the delivery of palliative medicine to children. This includes two new chapters, looking in detail at 'Decision Making' and 'Perinatal Care', and a new section highlighting the emerging importance of 'Palliative Care for Children in Humanitarian Crises'. This book is an essential resource for anyone who works with children worldwide.
