Varta Aircraft Battery Maintenance Manual

Remove the battery from the helicopter, clean it and then charge the battery fully with the shop's constant current battery charger as per the maintenance manual instructions. Then let the battery sit for about 10-12 hours. Then remove the surface charge by subjecting it to a steady discharge at the 1C rate for about 30 to 40 minutes.

Online Library Varta Aircraft Battery Maintenance Manual

Almost all lead-acid batteries, regardless of whether they are classic wet batteries (SLI) or modern AGM batteries are now maintenance-free. This means that topping up with distilled water is not necessary. Anyway, this should not be done by amateurs, but rather by your workshop. However, a little care extends the life of the battery and a regular check of the charge level helps to detect a ...
