'Why Do Buses Come in Threes?' shows how common questions can be solved with mathematics. That it does it in a very accessible and fun way is where it succeeds. Taking questions like the book title's or others like why it's so hard to find a four-leaf clover, the book delves into all sorts of things.

~~Why Do Buses Come in Threes: The Hidden Mathematics of...~~

In reality, buses usually come in twos. Only on long bus routes is it common for buses to come in threes. The reason for this phenomenon is that buses often make long stops to allow large groups of passengers to board. When this happens, the next bus on the route usually approaches before the bus preceding it departs. A bus route must be very long for a third bus to join the bunch. Therefore, buses usually come in twos; only on very long routes do they come in threes.

Why Do Buses Come in Threes? is a delightfully entertaining ride for anyone wanting to remind themselves—or discover for the first time—that math is relevant to almost everything we do. Buses that bunch, identical potato chips, and slicing a cake evenly for an odd number of guests all have their links to intriguing mathematical problems.

~~Why Do Buses Come in Threes? The Hidden Mathematics of...~~

The old joke that you wait ages for one bus, then three come along at once, is bordering on cliché. But it's also, as it turns out, true – not just because of bad planning, but also because of maths. The phenomenon is so common, in fact, that it has a choice of names. Bus bunching, clumping, convoying, platooning – all relate to the depressing reality that, over any length of time, buses serving a single route are likely to end up tootling along directly behind each other.

~~Q-Why do buses come in threes? A- Mathematical...~~

Published on Oct 6, 2015 in Trivia. Well ... the short answer is they don't! However our instinct behind the feeling that this DOES occur is not really far off They actually come in twos ! In order to investigate the bus phenomenon we'll have to devise what is known as a mathematical model – a simplification of the real situation with some invented figures.

~~Why do Buses Come in Threes? | guernseydenkey.com~~

Why Do Buses Come In Threes? This book is subtitled The Hidden Mathematics of Every Day Life, was written by Rob Eastaway and Jeremy Wyndham, and has a forward by Tim Rice.

~~Book reviews | plus.maths.org~~

Rob Eastaway is an English author who is active in the popularisation of mathematics and was awarded the Zeeman medal in 2017 for excellence in the promotion of maths. He is best known for his books, including the bestselling Why Do Buses Come in Threes? and Maths for Mums and Dads.His first book was What is a Googly?, an explanation of cricket for Americans and other newcomers to the game.

10 Reasons Why Traveling By Bus Is the Better Way to Get Around... Obviously, if I am traveling from Boston to LA and I am able to afford a plane ticket, I will do that.

~~10 Reasons Why Traveling By Bus Is the Better Way to Get...~~

So why do buses stop at railroad tracks? For the most apparent reason, the answer to this question is for road safety. As you know, it takes over a little than 2 kilometers to come to a full stop even under full emergency breaking, therefore buses have to stop right before each railroad track and open the door and listen to make sure that there ...

6.1 Previous chapters have focused on the first aim of the research, to explore why buses were not used more often. This penultimate chapter focuses on the second aim - what might encourage greater bus use in the future. First, the chapter explores whether participants felt they could use the bus more in the future for work and non-work ...

~~Understanding Why Some People Do Not Use Buses - gov.seot~~

First of all, a small disclaimer. It's actually far, far more likely that the buses will arrive in twos. The usual saying is great; we like to over-emphasis things when complaining and three is a very powerful number in the English language (think Goldilocks and the three Bears, three attempts to guess Rumpelstiltskin's name, the rule of three when using adjectives etc.).

Originally Answered: Why do school buses come to a complete stop at the train tracks and open their doors even when there is no stop sign and it's literally in the middle of traffic? It's the law that we do that and it's in case the train tracks alarm isn't working properly and because the bus is long and we have kids on board that we have to make sure that we could make it safely and not get hit by train.
