George Orwell set out ‘ to make political writing into an art ’ , and to a wide extent this aim shaped the future of English literature – his descriptions of authoritarian regimes helped to form a new vocabulary that is fundamental to understanding totalitarianism. While 1984 and Animal Farm are amongst the most popular classic novels in the English language, this new series of Orwell ’ s essays seeks to bring a wider selection of his writing on politics and literature to a new readership. In *Why I Write*, the first in the Orwell ’ s Essays series, Orwell describes his journey to becoming a writer, and his movement from writing poems to short stories to the essays, fiction and non-fiction we remember him for. He also discusses what he sees as the ‘ four great motives for writing ’ – ‘ sheer egoism ’ , ‘ aesthetic enthusiasm ’ , ‘ historical impulse ’ and ‘ political purpose ’ – and considers the importance of keeping these in balance. *Why I Write* is a unique opportunity to look into Orwell ’ s mind, and it grants the reader an entirely different vantage point from which to consider the rest of the great writer ’ s oeuvre. 'A writer who can – and must – be rediscovered with every age.' — Irish Times

Instead of reading for content or to better understand the ideas in the writing (which you will automatically do to some degree anyway), you are trying to understand how the piece of writing was put together by the author and what you can learn about writing by reading a particular text. As you read in this way, you think about how the choices the author made and the techniques that he/she used are influencing your own responses as a reader. What is it about the way this text is written that makes you feel and respond the way you do?
